

ANMI and IC Medical signed an exclusive distribution agreement for the supply ANMI's products including PSMA-11 cold kits for diagnosis and management of prostate cancer in the Netherlands.

Liège, Belgium and Vosselaar, Belgium – October 4th 2015

ANMI and IC Medical announced their collaboration for distribution of ANMI's products in the Netherlands. The first commercial product is PSMA-11 cold kit for production of ⁶⁸Ga-PSMA-11, for diagnosis and management of prostate cancer. This is part of the common strategy of IC Medical and ANMI to be able to provide a reliable, straight forward and cost effective processes for ⁶⁸Ga tracers production and in particular PSMA-11.

Ludovic Wouters, CEO and Co-founder of ANMI commented, "IC Medical has a long experience in nuclear medicine. Their focus on PET, SPECT, diagnosis and therapy make IC Medical a valuable partner for ANMI on this promising territory".

Ron van Loon, General Manager and owner of IC Medical, emphasizes the fact that with the availability of new technology more products will be available for the diagnosis and treatment of patients suffering from cancer. It's our strong belief that the partnership with ANMI combines innovative science and a longstanding experience in the nuclear medicine industry, to better serve our patients.

About ANMI

ANMI SA is an Active Pharmaceutical Ingredients (API) supplier for radiometals labeled radiopharmaceuticals and a global service provider in the nuclear medicine field, located in Liège, Belgium.

ANMI has developed innovative solutions to facilitate the synthesis of these theranostic radiopharmaceuticals and to ease their daily production in hospitals.

ANMI vision is focusing on increasing patient access to new highly specific theranostic radiopharmaceuticals through straight forward and cost effective production processes.
